## Projects

### Akairu (Coffee Shop)

- Akairu Coffee Shop is a modern café where tradition meets technology. As a backend developer utilizing Firebase, I've built a seamless and efficient system to handle real-time orders, inventory, and user management. The cloud-based infrastructure ensures secure transactions and a smooth customer experience, from online ordering to in-store pickups.

### AirFly (Booking Services)

- AirFly Booking Services is a sleek and user-friendly platform designed for hassle-free travel planning. Powered by Vue.js, I developed a dynamic and responsive front-end that ensures a seamless booking experience across devices.
